

# Malayath Sreenivasan Anjana

## RESUME SUMMARY

As a passionate and innovative Frontend and Web Developer with experience in building user-friendly interfaces, my vision is to create impactful solutions that enhance user experience. Skilled in HTML, CSS, and JavaScript, I aim to contribute to dynamic projects that push boundaries in web development.

## PERSONAL DETAILS

### EDUCATION

#### Graduation

Course	B.Tech/B.E. ( Computers )
College	vignan's institute of information technology
Score	9.0%

#### Schooling

#### Class XII

#### Class X

Board Name	Andhra Pradesh	CBSE
Medium	English	English
Year of Passing	2021	2019
Score	95%	94%

## INTERNSHIPS

### TechnoHacksedutech | April 2024 - May 2024

- During my internship, I worked on several creative frontend projects using React that significantly enhanced my web development skills. I developed a personal portfolio website, which allowed me to showcase my work and skills through a responsive and visually appealing interface. Additionally, I created an interactive calculator application, implementing complex state management to handle various calculations dynamically and efficiently. Another project I completed was a countdown timer, where I focused on precise time management and user interface design to provide a clear and engaging user experience.

### Oasis Infotech | May 2023 - June 2023

- During my internship, I had the opportunity to delve into the dynamic world of marketing at Oasis Infotech Company. During my web development internship, I embarked on an immersive journey into the realm of front-end technologies at Oasis Infotech Solutions. Working alongside seasoned developers, I played a pivotal role in building responsive and user-friendly web applications. From designing sleek user interfaces using HTML, CSS, and JavaScript to implementing robust functionality helped in enriching my overall experience in this domain.

## PROJECTS

### College management system | August 2023 - October 2023

- Created a website for college management by developing a user friendly interface using HTML, CSS, javascript. It

aims to solve any issues faced by the students by directly posting in the website. The issues will be shown to the concerned coordinator only and it also maintains the details of the student confidential. I have also used a backend API which helps to get the issue posted by the student directly to the concerned coordinator email. It helps to deal with the issues like attendance , ragging, exams,etc.

## ACHIEVEMENTS

- Top 10 in class, Received scholarship in B.Tech/B.E.
- Received scholarship in school

## SKILLS

- Frontend Web Developer Intern
- Problem Solving Skills
- HTML
- Css/Css3
- React.js
- Javascript
- GIT
- Figma
- Bootstrap
- C
- C++
- Python
- Communication Skills
- Coding
- Angularjs
- Express
- MongoDB
- Flutter
- Node.js
- React Native

## LANGUAGES KNOWN

English ( Both )  
Hindi ( Both )  
Malayalam ( Spoken )  
Telugu ( Spoken )

## CERTIFICATIONS

- HTML
- python
- Problem Solving
- Introduction to javascript
- Javascript essentials 1
- Full stack development
